

NUTCRACKER

PENETRATING-LUBRICATING OIL

Nutcracker is a unique multi use fluid specially formulated for New Zealand requirements to be both a penetrating and lubricating oil as well as a machining compound.

Unlike many other penetrating fluids, the anti rust component is non toxic giving Nutcracker a pleasant sweet odour.

Nutcracker comes in a manual dispensing bottle rather than an aerosol container and is MPI approved C-12

Nutcracker has many uses ranging from wire ropes, scaffolding protection, shearing hand pieces, general handy man + many more!
